IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF MASSACHUSETTS

PHOTOGRAPHIC ILLUSTRATORS CORPORATION, Plaintiff, v. INTERNATIONAL LIGHTING CORP. D/B/A INTERLIGHT, Defendant.	CIVIL ACTION NO.: 1:14-cv-14256

COMPLAINT AND JURY DEMAND

Plaintiff Photographic Illustrators Corporation ("PIC" or "Plaintiff") brings this civil action against Defendant International Lighting Corp., d/b/a Interlight ("Interlight" or "Defendant").

THE PARTIES

1. PIC is a Massachusetts corporation with a place of business at 467 Sagamore Street, Hamilton, Massachusetts 01936.

2. Upon information and belief, Defendant Interlight is an Indiana corporation whose principal office is located at 7939 New Jersey Avenue, Hammond, Indiana 46323.

JURISDICTION AND VENUE

3. This is a civil action for injunctive relief and damages for violation of the copyright laws of the United States, 17 U.S.C. §§ 101, et seq.; the Digital Millennium Copyright Act, 17 U.S.C. §§ 1201, et seq.; the Lanham Act, 15 U.S.C. §§ 1051, et seq.; and for unfair and deceptive trade practices in violation of Mass. Gen. L. ch. 93A. Jurisdiction over the state law claim is proper under 28 U.S.C. § 1367.

4. The amount in controversy exceeds $75,000, exclusive of interests and costs, and is between citizens of different states. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. §§ 1331, 1332, and 1338.

5. Interlight does business in Massachusetts.

6. Interlight operates a website (www.interlight.biz).

7. Interlight's website is accessible from Massachusetts.

8. Through its website, Interlight advertises, sells, and offers for sale lighting products to online visitors, including online visitors located in Massachusetts, and invites visitors to its website to create online accounts.

9. Interlight does not exclude Massachusetts consumers from visiting, interacting with, or making purchases through its website.

10. This Court has personal jurisdiction over Interlight because Interlight: has transacted business in Massachusetts; has contracted to supply products in Massachusetts; and has injured PIC in Massachusetts by reproducing and distributing PIC's copyrighted images on Interlight's website (which can be accessed in Massachusetts) to advertise and sell products.

11. Venue is proper in this judicial district under 28 U.S.C. §§ 1391.

PIC'S COPYRIGHTED IMAGES

12. PIC specializes in photography, including photography of consumer products for catalogs, advertising, and product packaging.

13. Over a span of years dating back to the 1960s, various companies, including Osram Sylvania, Inc. ("Sylvania"), have retained PIC to photograph certain of their products.

14. PIC authored the 40 photographic images referenced in this Complaint (the "PIC Images").

15. Each of the PIC Images is a photograph of a Sylvania product that PIC created.

16. PIC retains ownership of all right, title, and interest in the copyrights for the PIC Images.

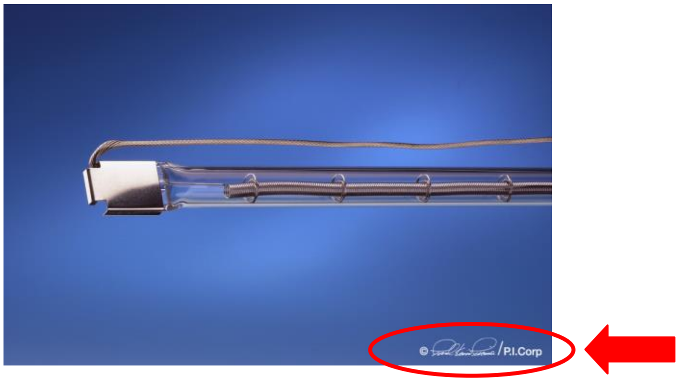
17. 32 of the PIC Images were made the subject of applications which matured into United States Copyright Registration Certificate Nos. VA 1-321-513, VA 1-325-168, VA 1-359-243, VA 1-359-244, VA 1-884-805, VA 1-884-811, VA 1-916-393, VA 1-916-402, VA 1-916-412, VA 1-916-418, VA 1-916-428, VA 1-916-443, VA 1-916-447, VA 1-916-450, VA 1-916-456, VA 1-917-076, VA 1-917-079, VA 1-917-094, and VA 1-917-096 (attached as Exhibit A, Exhibit B, Exhibit C, Exhibit D, Exhibit E, Exhibit F, Exhibit G, Exhibit H, Exhibit I, Exhibit J, Exhibit K, Exhibit L, Exhibit M, Exhibit N, Exhibit O, Exhibit P, Exhibit Q, Exhibit R, and Exhibit S).

18. 7 of the PIC Images were made the subject of applications for copyright registration which were received by the United States Copyright Office on June 21, 2013. These applications for registration were complete and submitted in proper form with the appropriate filing fees.

19. 1 of the PIC Images was made the subject of an application for copyright registration which was received by the United States Copyright Office on November 10, 2014. This application for registration was complete and submitted in proper form with the appropriate filing fee.

20. Interlight's infringement of the copyright in each PIC Image began after PIC's first publication of that PIC Image.

21. Before publishing the PIC Images, PIC attaches, or includes therewith, the name of the author (Paul Kevin Picone), copyright owner (P.I. Corp.) and copyright notice (collectively, "PIC Copyright Management Information"), as shown in the examples below:



INTERLIGHT'S UNAUTHORIZED ALTERATION AND USE OF PIC IMAGES

22. As depicted in the 55 sets of images below, each of the images displayed on Interlight's website, www.interlight.biz ("Accused Images"), is a copy, in whole or in part, of one of the PIC Images.

23. On information and belief, Interlight altered copies of the PIC Images for use on Interlight's website through the use of image editing software, such as "Adobe Photoshop." PIC's unique orientation of the products, the location of the shadows and reflections, and the pattern of the background are visible in multiple Accused Images, as indicated below, despite Interlight's removal of products in the PIC Images or other attempts to change the PIC Images. Vestiges of these unique elements in the PIC Images are visible in multiple Accused Images, despite Interlight's unsuccessful attempts to remove them.

24. On information and belief, Interlight also removed PIC Copyright Management Information from all of the PIC Images and added its own copyright management information, "www.interlight.biz," as indicated below.

SYLVANIA P.I.Corp	www.interlight.biz SYLVANIA
Examples of Accused Images with False Copyright Management Information	
www.interlight.biz	 www.interlight.biz

25. On information and belief, Interlight intended to mask its copyright infringement by claiming ownership of the PIC Images through placement of the false copyright management information.

26. Interlight has copied, distributed, and/or used—and continues to copy, distribute, and/or use—the PIC Images, at least on its website, to advertise and sell products, including products which are not the subjects of the misappropriated PIC Images.

27. Interlight has never been, and is not currently, licensed by PIC to copy, distribute, and/or use the PIC Images.

28. On information and belief, Interlight has never been, and is not currently, licensed by Sylvania to copy, distribute, and/or use the PIC Images.

29. Interlight has never been, and is not currently, licensed by Sylvania to copy, distribute, and/or use the PIC Images with a false Interlight watermark attached thereto, nor to advertise products of companies other than Sylvania.

30. In the table below, the image on the top left was authored by PIC and then registered with the Copyright Office on June 21, 2013 (Reg. No. VA 1-917-096). The image on the top right appears on a webpage of Defendant's website, pictured in the second row.

DAMAGE TO PIC'S BUSINESS AND REPUTATION

442. PIC's photography services and images enjoy an excellent reputation and have gained great value and recognition in the marketplace.

443. For over three decades PIC has done business under the PIC name and has used the name of PIC's President, Paul Kevin Picone, in connection with PIC's services. Through PIC's longstanding practice of attaching to each published PIC Image, or including therewith, the names "P.I. Corp." and "Paul Kevin Picone," consumers have come to associate these names with high-quality photography. PIC thus has common law trademark rights in the P.I. CORP. and PAUL KEVIN PICONE marks ("PIC Marks").

444. PIC relies on the PIC Marks and Copyright Management Information that it attaches to each of its images, or includes therewith, as its primary mode of advertising. Potential customers seek out and contact PIC using this information.

445. PIC is not affiliated with Interlight and has not approved any of Interlight's uses of or alterations to PIC Images.

446. By removing the PIC Marks and Copyright Management Information from the PIC Images, Interlight has removed PIC's primary advertisement vector, thereby depriving PIC of business opportunities.

447. By replacing the PIC Marks and Copyright Management Information on the PIC Images with false Interlight copyright management information, Interlight has created a likelihood that consumers will mistakenly believe that Interlight created the PIC Images. Interlight's doctoring of the PIC Images misleadingly represents to the world that Interlight – and not PIC – is the author, source, and copyright owner of the PIC Images displayed on Interlight's website.

448. Interlight, by its misdeeds, has created a likelihood that potential PIC customers will erroneously believe Interlight to be the source and owner of the PIC Images. Interlight's misrepresentation and the resulting likelihood of consumer confusion have damaged PIC.

COUNT I
(Copyright Infringement, 17 U.S.C. § 501)

449. PIC repeats and re-alleges the allegations of the paragraphs above as though fully set forth herein.

450. Interlight has infringed PIC's copyrights in its PIC Images, in violation of 17 U.S.C. § 501, by copying, distributing, and/or using PIC Images without license or other authorization.

451. Interlight's infringement has been knowing and willful.

452. Interlight's infringement has damaged PIC in an amount to be proven at trial.

453. Unless stopped by an injunction, Interlight will continue infringing PIC's copyrights in its PIC Images and will cause PIC to suffer irreparable harm for which there is no adequate remedy at law. Therefore, PIC is entitled to injunctive relief.

COUNT II
(Integrity of Copyright Management Information, 17 U.S.C. § 1202)

454. PIC repeats and re-alleges the allegations of the paragraphs above as though fully set forth herein.

455. On information and belief, Interlight has knowingly and with intent to induce, enable, facilitate, or conceal infringement of the PIC Images, provided and/or distributed false copyright management information in relation to its use of the PIC Images, in violation of 17 U.S.C. § 1202(a).

456. On information and belief, Interlight has intentionally removed or altered PIC Copyright Management Information for the PIC Images without PIC's authorization, and/or distributed copyright management information with knowledge that the PIC Copyright Management Information was removed or altered without PIC's authorization, in violation of 17 U.S.C. § 1202(b).

457. On information and belief, Interlight's violation of 17 U.S.C. § 1202 has been knowing and willful.

458. Interlight's violation of 17 U.S.C. § 1202 has damaged PIC in an amount to be proven at trial.

459. Unless stopped by an injunction, Interlight's behavior will continue and will cause PIC to suffer irreparable harm for which there is no adequate remedy at law. Therefore, PIC is entitled to injunctive relief.

COUNT III
(Lanham Act Violations, 15 U.S.C. § 1125(a))

460. PIC repeats and re-alleges the allegations of the paragraphs above as though fully set forth herein.

461. PIC possesses common law trademark rights in the PIC Marks.

462. Interlight has used the PIC Images in commerce in connection with its sale of Interlight's goods and services.

463. On information and belief, Interlight stripped the PIC Marks and Copyright Management Information from the PIC Images. Without PIC's authorization, Interlight added false Interlight copyright management information to PIC Images.

464. Interlight doctored PIC Images to give the misleading appearance that Interlight is the creator and copyright owner of the PIC Images. Consumers are thus likely to be deceived as to the true origin of the PIC Images.

465. Customers who are familiar with PIC's decades of work for Sylvania and who recognize the Accused Images as PIC's are likely to mistakenly believe that Interlight and PIC are in some way affiliated, connected, or associated as a result of Interlight's misuse of the PIC Marks, Copyright Management Information and Images. Interlight's misconduct is also likely to deceive such consumers by causing them to believe that PIC sponsors or approves of Interlight's goods, services, or commercial activities. Interlight's misconduct violates 15 U.S.C. § 1125(a)(1)(A).

466. Interlight's unauthorized alteration and use of PIC Images, Marks, and Copyright Management Information occurs in commercial advertising or promotion, and misrepresents the

nature, characteristics, qualities, or geographic origin of Interlight's goods, services, or commercial activities, in violation of 15 U.S.C. § 1125(a)(1)(B).

467. On information and belief, Interlight's misuse of PIC Marks, Copyright Management Information and Images, and Interlight's acts and/or omissions as described above were knowing and willful.

468. Interlight's violations of the Lanham Act have damaged PIC in an amount to be determined at trial.

469. Unless stopped by an injunction, Interlight's behavior will continue and will cause PIC to suffer irreparable harm for which there is no adequate remedy at law. Therefore, PIC is entitled to injunctive relief.

COUNT IV
(Unfair And Deceptive Trade Practices, Mass. Gen. L. ch. 93A)

470. PIC repeats and re-alleges the allegations of the paragraphs above as though fully set forth herein.

471. Interlight is, and at all relevant times has been, engaged in commerce.

472. Interlight's acts and/or omissions as described above (and the center of gravity of those acts and/or omissions) occurred primarily and substantially in Massachusetts.

473. Interlight's acts and/or omissions as described above constitute unfair and deceptive trade practices under Mass. Gen. L. Ch. 93A.

474. Interlight's unfair and deceptive trade practices impact the public interest by causing consumer confusion.

475. Interlight's acts and/or omissions as described above were knowing and willful.

476. Interlight's unfair and deceptive trade practices damaged PIC in an amount to be determined at trial.

477. Unless stopped by an injunction, Interlight's behavior will continue and will cause PIC to suffer irreparable harm for which there is no adequate remedy at law. Therefore, PIC is entitled to injunctive relief.
